

THE CRYSTAL CLEAR BENEFITS OF AQUAKLEEN.

Your water may look pure and refreshing, but the truth is it may contain many chemicals and impurities.

Pure water that falls as rain or snow collects many impurities before it splashes to earth. As it falls, it collects dirt, dust and other pollutants present in the atmosphere. As it seeps into the ground, it picks up additional contaminants including calcium, magnesium, iron, and other minerals, pesticides, herbicides, fertilizers, industrial solvents, animal waste, and whatever else is present in its path will also be absorbed.

It is water that tastes bad. Water that damages pipes, leaves ugly scum rings on tubs and sinks, and covers dishes, glassware and silverware with dull spots while it decreases the useful life of water heaters, plumbing, cookware, dishwashers, garbage disposals and washing machines. It is water that clogs your pores and sometimes causes allergic rashes. According to the Water Quality Research Council, it's water that costs American families an estimated \$6.3 billion a year.

Aquakleen is a water treatment system that refines, softens, neutralizes, clarifies, and filters every drop of water before it enters your home. The result is the water you bathe in, drink, and cook with, is as clean, clear, refreshing and odor-free as nature intended.

Removing mineral deposits from your water eliminates the problem of dull streaks and spots that form when washing dishes by hand or in the dishwasher. Your dishes, glassware and silverware come out clean and sparkling.

Refined water can cut your household cleaning time in half, taking the scrubbing and pre-filling out of your house-cleaning chores, while actually leaving everything cleaner.

Fabrics last longer, come out fresher, cleaner, softer and brighter when washed in refined water - all without bleaching or ironing. Refined water also requires far less soap than you're used to.

Fresh-tasting water, produced by Aquakleen Reverse Osmosis, is the highest quality water you can drink. It is ideal for making beverages like coffee, tea and juices from concentrate. Even food cooked with refined water tastes better, and is better for you.

Our Refinement system removes the harmful mineral deposits that clog and corrode pipes, restrict water pressure and wear out water heaters and appliances. Your plumbing and water-using appliances will stay like new.

Refined water makes your baths and showers more luxurious, without leaving a soapy build-up on your skin, giving you a clean, refreshing feeling and a healthier complexion.
